On October 14, 2024, a debate and discussion on the topic of “**Unlocking Nature: The Promise and perils of patenting life forms**” was organized by the Intellectual Property Rights Cell,

Gautam Buddha University. The event was sponsored by Institution Innovation Council, Gautam Buddha University, Uttar Pradesh.

Students from various schools participated in the event and discussed and debated various aspects of patenting life forms. It was indeed a thought-provoking discussion as the students came up with the technical, legal and moral angles of life form research. The event successfully came up as an amalgamation of the budding brains of future lawyers, scientists and technocrats.

The debate was judged by Dr. Jaya Maitra and Dr. Bhaswati Banerjee. The programme was concluded by prize distribution to the winners and vote of thanks by Dr. Tanvi Vats, member IPR cell.
